

MD NEW STUDENT ORIENTATION 2022  
Office of Admissions and Student Affairs

**MOREHOUSE**  
SCHOOL OF MEDICINE

Entering Class of 2022  
Doctor of Medicine  
June 3<sup>rd</sup> – July 1<sup>st</sup>

Dear Morehouse School of Medicine Student:

Our school is graced by an overwhelming number of exceptionally well qualified applicants. You are in good company and I am delighted to help you begin your journey into the remarkable profession of medicine.

Greetings MD Entering Class of 2022,

Welcome to Morehouse School of Medicine (MSM) where we lead in the creation and advancement of health equity! We are so excited to have you as part of our MSM family. You are not only a student, but you are a health warrior! What does that mean? We will educate and guide you to develop the knowledge, skills and attitudes that will allow you to deliver compassionate, culturally competent care to patients and communities, eliminate health disparities and challenge systems and notions that limit people from reaching their optimal health.

Fifteen years ago, I came to MSM as an Assistant Professor of Medicine. MSM's mission was so closely aligned with my personal mission—to serve the underserved. I had found my place and my people. Though I spent most of my early career at MSM in graduate medical education (residents), I have always been utterly impressed by our students. The care and compassion you provide our patients at our clinical sites is unrivaled.

MSM's Office of Student Affairs exists to provide support services, advising, and innovative programs for students. Our vision: To empower and engage students to reach their full potential. Our Mission: The MSM Office of Student Affairs advances health equity through providing our diverse group of health care professional students with holistic advisement, guidance and support that is flexible, timely and compassionate helping them to succeed on their educational journey.

Our Core values: Wisdom, Excellence, and Service (MSM core values) and Inclusivity and Compassion. We achieve our mission by focusing on three key areas: Wellness, Engagement, and Resources.

*Wellness:* We are uniquely attuned to the fact that holistic wellness is a key component to student success. Our Counseling Services office has three counselors adept at working with students in the graduate education space. In addition, we have a Student Health and Wellness Center just steps away from campus where students can get primary care, vaccinations, health screenings, and mental health services. There is a campus fitness center as well as a YMCA across the street. During this upcoming year we will be engaging in an innovative wellness program called "Core Wellness." We are excited to begin this initiative with your incoming class. A Student Wellness Committee will be key in helping us plan well-attended activities for the upcoming year.

*Engagement:* There are over 30 student organizations at MSM. The OSA supports these organizations through assisting with events and fundraisers. Student leaders are actively engaged to participate in important campus events. At MSM, we have a highly active and engaged Student Government Association. In addition to sponsoring student events, the SGA sponsors Student Town Hall meetings and the leadership actively advocates student issues and concerns. We also have a Campus Activity Board that sponsors activities for all students and a newly formed Interprofessional Education Council.

*Resources:* In addition to those resources listed above we actively partner with OSLEP (Academic Student Support Services), Undergraduate Medical Education, The Dean's Office, and the Office of Disability Services to make sure that students have the resources that they need to be successful during their educational journey. During this upcoming year we are excited to build our student advising system and continue and expand our peer support services for our students. We also house the Office of the Registrar that oversees transcript requests, etc.

In closing, we are delighted to have you join us at Morehouse School of Medicine. I look forward to meeting each of you and supporting you on your health care journey!

Sincerely,

A handwritten signature in cursive script that reads "Cinnamon D. Bradley, MD". The ink is dark and the signature is fluid and legible.

Cinnamon Bradley, MD  
Associate Dean of Student Affairs Professor of Medicine
